

HIGH SPIN WASHING MACHINE, 6/7 KG GH 70 E

Ref: 0903.12.047
Grandimpianti

Washing machine with steel drum and tank. The only material that guarantees durability over time and allows for a professional and intensive use of the equipment.

Floating front with no joint gasket. A solution adopted in all professional appliances. A component that is usually subject to wear, water leaks and ongoing maintenance have been eliminated. It is also easier to load and unload the laundry.

GH70 washing machines have a double inlet for hot and cold water. A 30% reduction to washing cycle times and running costs.

The focus on energy consumption, both in terms of power absorbed and power installed, has allowed us to optimise the duration of washing cycles.

Electronic touch control, multifunction knob and integrated diagnostics.

Equipped with standard drain pipe and 2 water loading pipes (hot water and cold water).

FEATURES

Dimensions (WDH)	595x591x865 mm
Total power	3.4 kW
Heating power	3.2 kW
Power supply	400V/3/50 Hz
Water consumption	40 (fria/cold), 8 (quente/cold)
Door	Ø 300 mm
Drum volume	60 l
Load capacity (1:10/1:9)	6 kg / 6.7 kg
Spin	50 - 1400 rpm
G Fator	530
Net weight	76.5 kg
