

INDUCTION STOVE WITH 2 INDUCTORS, FREE STANDING F2I M940 NV

Ref: 1110.220.033M
Magnus

50% less energy consumption compared with traditional cookers. Induction heating only with direct contact to the suitable pan. Body in stainless steel. Glass ceramic plate with 6 mm thickness, perfectly embedded into the working surface. 2 Independent cooking zones. Temperature control with 6 levels. Safety device that interrupts the energy supply in case of overheating. Easy access to all functional components through the front parts. Signal light for plate activity.

FEATURES

Dimensions (WDH)	400x900x850/925 mm
Inductors power	2x 5 kW
Total power	10 kW
Power supply	400V/3/50 Hz
Weight	100 kg
