

STEAM HIGH SPIN WASHING MACHINE, 120 KG WFP 120

Ref: 0906.12.001

Grandimpianti

Stainless steel body, tub and drum.

Graphic display with almost unlimited possibilities as: freely programmable, multilingual microprocessor.

Extra-large door opening.

Two large drain valves.

Easy access to all parts for maintenance.

The induction motor is controlled by inverter.

Perforated lifting ribs: more mechanical action, lower water inlet.

Eco washing programs: significantly reduces water and electricity consumption.

Supplied optional: three-phase section circuit-breaker, emergency push-button, water supply piping, drain pipe.

Other versions and capacity available on request:

80 kg: electric; steam + electric; steam; hot water

100 kg: steam; hot water

120 kg: steam; hot water

FEATURES

Dimensions (WDH)	1800x2025x2080 mm
Total power	18.5 kW
Power supply	400V/3/50 Hz
Direct steam pressure	3 - 8 bar
Water consumption (cold, warm, hot)	730 / 370 / 370 l
Door dimensions	Ø 650 mm
Drum size	Ø 1300x870 mm
Drum volume	1180 l
Load capacity (1:10)	118 kg
Load capacity (1:9)	131.1 kg
G Factor	350
Drum speed	34 - 700 rpm
Cycle length	58 min.
Weight	3115 kg
Packaging dimensions	2000x2170x2342 mm
Gross weight	3130 kg
