

GAS PIZZA OVEN, 1 CHAMBER 700X700X150 MM G4

Ref: 1040.775.001

Magnus

Possibility to prop up to two chambers of the same model (see optional).

The gas oven was designed to replace wood-burning ovens, with the advantages such as easier use and cleaning.

Inside the aluminised plate chamber, the particular shape of the steel deflectors makes it possible to direct the heat the drills ceiling of the chamber towards the pizza.

Specify the type of gas: natural gas or LPG.

FEATURES

Dimensions (WDH)	1130x1070x470 mm
Chamber dimensions (WDH)	700x700x150 mm
Total power	Gas=14 kW + Electric=0.2 kW
Absorbed power	12037 kcal/h
Gas consumption (liquid)	1.1 m3/h
Gas consumption (natural)	1.48 m3/h
Pizza capacity (Ø 34 cm)	4 un.
Temperature	450 °C
Weight	132 kg
Packaging dimensions	1150x1230x670 mm
Gross weight	149 kg
