

GAS PIZZA OVEN, 1 CHAMBER 700X1050X150 MM G6

Ref: 1040.775.002
Magnus

Possibility to prop up to two chambers of the same model (see optional).
The gas oven was designed to replace wood-burning ovens, with the advantages such as easier use and cleaning.
Inside the aluminised plate chamber, the particular shape of the steel deflectors makes it possible to direct the heat the drilles ceiling of the chamber towards the pizza.
Specify the type of gas: natural gas or LPG.

FEATURES	
Dimensions (WDH)	1130x1450x470 mm
Chamber dimensions (WDH)	700x1050x150 mm
Total power	Gas=20 kW + Electric=0.2 kW
Absorved power	17196 kcal/h
Gas consumption (liquid)	1.58 m3/h
Gas consumption (natural)	2.12 m3/h
Pizza capacity (Ø 34 cm)	6 un.
Temperature	450 ºC
Weight	164 kg
Packaging dimensions	1230x1600x670 mm
Gross weight	187 kg
