

GAS PIZZA OVEN, 1 CHAMBER 1050X1050X150 MM G9

Ref: 1040.775.003
Magnus

Possibility to prop up to two chambers of the same model (see optional).

The gas oven was designed to replace wood-burning ovens, with the advantages such as easier use and cleaning.

Inside the aluminised plate chamber, the particular shape of the steel deflectors makes it possible to direct the heat the drills ceiling of the chamber towards the pizza.

Specify the type of gas: natural gas or LPG.

FEATURES

Dimensions (WDH)	1480x1400x470 mm
Chamber dimensions (WDH)	1050x1050x150 mm
Total power	29 kW
Absorved power	24934 kcal/h
Gas consumption (liquid)	2.29 m3/h
Gas consumption (natural)	3.07 m3/h
Pizza capacity (Ø 34 cm)	9 un.
Temperature	450 °C
Weight	196 kg
Packaging dimensions	1250x1300x1000 mm
Gross weight	150 kg
