

POTATO HAND CHIPPING MACHINE WITH KNIFE BLOCK AND PUSHER SET 10X10 MM CF-5

Ref: 0706.10.001
 Sammic

Clean and uniformed cut, without waste.
 Light stainless alloy body.
 Controls and nuts in stainless steel.
 Comfortable use: The springs at the rear leave the grid completely free. The pusher ejects the chips and leaves the grid free.
 The springs are highly flexible compensators which help to raise the presser-ejector.
 Included 10x10 mm grid.
 Container not included (Maximum GN1/1 h=150 mm).
